Kenwood's New NEXEDGE® Wireless Image System

Kenwood announces the launch of the first Kenwood and JVC joint development project - the KVT-11 Image Encoder and KAS-11 Image Viewer for the remote acquisition of still images from surveillance cameras using the NEXEDGE® Digital two-way radio system and JVC cameras.

The new products are in step with Kenwood's "green" ecological initiative of environmental responsibility in product design, production and procurement.

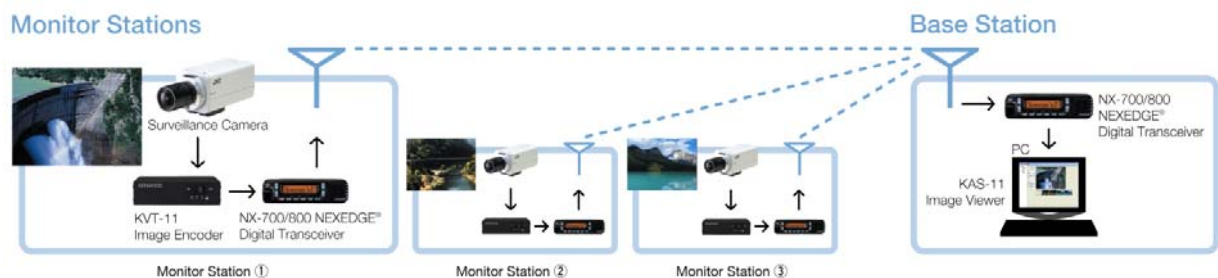

KVT-11 Image Encoder

KAS-11 Image Viewer

System Overview

Benefits

- No wired infrastructure needed for long range coverage by two way radio solution
- Source pictures of 900kB can be compressed to 18KB, 12KB, 6KB, 3KB or 1.5KB*
- Tamper-proof data format, with bitmap/JPEG conversion option

* Data size of source and compressed images varies on every picture you take.

For details, please ask your Kenwood contacts, or visit <http://nexedge.kenwood.com/>
